

A TWILIO GOLD & AI CERTIFIED PARTNER

Agentic voice that resolves, from first ring to confirmed closure.

You have already made the right infrastructure choice. Kaptea works on top of the contact centre and carrier you already run, answering every call in seconds with agentic voice, escalating to your team with full context, and confirming every case closed. Live in hours, and governed to the standard your regulator expects.

WHAT YOU GET WITH TWILIO

Voice, messaging and the new agentic AI building blocks from the market leader, carrier-grade and proven at global scale, working alongside the contact centre you already run, whether that is Genesys, Avaya, Cisco or Twilio. And it is all on your own account, so your data and your carrier relationships stay yours. Now you need the front door that resolves every call and proves it.

WHAT PRONTO ADDS ON TOP

The resolution layer for every conversation. Agentic voice understands natural language, reaches your live customer data and resolves in the call. When a person is needed, an agent picks up with the full timeline and an AI summary on screen. And the case closes only when the customer confirms it is resolved.

"We spent 18 months trying to make our IVR work better. We added menu options, recorded clearer prompts, brought in a consultancy. Abandonment stayed at 60%. Then we replaced the IVR with Kaptea. Six weeks later it was under 7%."

CONTACT CENTRE DIRECTOR

HOW IT WORKS, FROM FIRST RING TO CONFIRMED CLOSURE

01

Answered in seconds, in natural language

Every call answered immediately. The caller states their need once, in their own words, and the conversation starts there.

02

Resolved in the call

Account queries, appointment changes, bookings and payments handled in conversation, with your live customer data behind every answer.

03

People, the moment it matters

Escalation lands with a human who sees the full conversation timeline and an AI summary before they pick up. The customer never repeats themselves.

04

Closure confirmed, trust measured

A case closes when the customer confirms their need was met. Every closure is timestamped as evidence, and closed loops become a live trust score your leadership can monitor.

KAPTEA BY THE NUMBERS

<10

Partners worldwide hold both Twilio Gold and AI Certified status. Kaptea is one of them.

<7%

Call abandonment six weeks after Kaptea replaced an IVR running at 60%.

30–50%

Pickup uplift from branded, verified outbound calling, so the right message reaches the customer.

9.7/10

How our clients rate us. ISO 27001, CREST and Cyber Essentials Plus.

NEXT STEP

Hear it answer, on your own Twilio.

Everything in more depth is at kaptea.io/contact-centre-voice. And the fastest way to judge agentic voice is to hear it: ask us, and our AI agent will call you with a live sample.
