

A TWILIO GOLD & AI CERTIFIED PARTNER

The complete customer journey. Built on your Twilio.

You have already made the right infrastructure choice. Kaptea's Pronto platform deploys on the Twilio account you own and orchestrates every customer journey across human, agentic and automated workflows. Each commitment is carried from the first event to a confirmed outcome. Live in hours, and simple to evolve as you grow.

WHAT YOU GET WITH TWILIO

Voice, SMS, RCS, WhatsApp and Email from the market leader, carrier-grade and proven at global scale, with the new agentic AI building blocks alongside. And it is all on your own account, so your data and your carrier relationships stay yours. Now you need the solution that orchestrates it all together into complete customer journeys.

WHAT PRONTO ADDS ON TOP

The orchestration layer that turns those channels into complete journeys. One workflow engine and one governed template library run every channel. Conversations remember what happened last time. When a customer needs a person, an agent picks up with the full story on screen. And every outcome is confirmed, captured and auditable.

"We came in looking for a multi-channel campaign tool. We left with a journey engine that connects our commerce events to live agent escalation in one workflow. The team didn't have to stitch four vendors together to get there."

HEAD OF CUSTOMER OPERATIONS, MULTI-BRAND UK RETAILER

HOW IT WORKS, ON THE TWILIO YOU ALREADY OWN

01

Pronto deploys on your Twilio account

Your account, your carrier relationships, your data. A dedicated instance of your own, with EU, UK or US residency, live in hours.

02

Your journeys are pure configuration

A journey starts from any event in your CRM, commerce or ERP stack, pulls live customer data into the message, and branches on how people respond.

03

Conversations run as one, on every channel

SMS, RCS, WhatsApp, Email and Voice with branded sender and verified branded calling. Context follows the customer; nobody repeats themselves.

04

Outcomes confirmed, trust measured

Every promise is tracked to a resolution your customer confirms, with a human stepping in the moment it matters. Closed loops become a live trust score your leadership can monitor.

KAPTEA BY THE NUMBERS

<10

Partners worldwide hold both Twilio Gold and AI Certified status. Kaptea is one of them.

Hours

To a live dedicated instance, with the first journey typically built in week one

99.5%+

Transactional message delivery, with cross-channel failover built in

9.7/10

How our clients rate us. ISO 27001, CREST and Cyber Essentials Plus.

NEXT STEP

See the complete journey running on your own Twilio.

Everything in more depth, with real examples and answers to the common questions, is at kaptea.io/customer-journey-orchestration. And when you want to talk it through, you will be talking to the founders.
