

A TWILIO GOLD & AI CERTIFIED PARTNER

The reservation is a promise. Keeping it is the whole experience.

You have already made the right infrastructure choice. Kaptea's Pronto platform deploys on the Twilio account you own and orchestrates the whole reserved experience, from booking to confirmed outcome, across human, agentic and automated workflows. Every reminder, change, disruption and follow-up, handled. Live in hours, and simple to evolve as you grow.

WHAT YOU GET WITH TWILIO

Voice, SMS, WhatsApp and Email from the market leader, the channels your guests actually read, carrier-grade and proven at global scale. Branded sender and verified calling put your name on every message and call, and it is all on your own account, so your data and your carrier relationships stay yours. Now you need the journey that runs from the booking to the confirmed outcome.

WHAT PRONTO ADDS ON TOP

The orchestration layer that turns a booking into a kept promise. One booking event triggers the whole journey: pre-arrival, on-the-day, in-experience and follow-up. Agentic voice answers when the line runs hot. Guests can reply, change or ask, and the journey responds. And every promise is tracked to a confirmed outcome.

"We have a great booking flow and a great venue. The bit in between, everything from confirmation to arrival, is held together with spreadsheets, a shared inbox and whoever is on shift. It is the part our guests actually feel, and it is the part we have least control over."

HEAD OF GUEST EXPERIENCE, HOTEL GROUP

HOW IT WORKS, FROM BOOKING TO CONFIRMED OUTCOME

01

The booking starts the journey

One event from your booking, PMS or appointment system triggers the right journey automatically, on the Twilio account you already own.

02

Guests prepared, no-shows recovered

Pre-arrival information, upsells and timed reminders with one-tap confirm, change or rebook, on the channel each guest actually reads.

03

The phone answered, even mid-service

Agentic voice takes and changes bookings in natural language, day and night, and hands to your team with full context the moment it matters.

04

Every promise kept, and measured

The follow-up asks the right question at the right moment, the guest confirms the outcome, and closed loops become a live trust score your leadership can monitor.

KAPTEA BY THE NUMBERS

<10

Partners worldwide hold both Twilio Gold and AI Certified status. Kaptea is one of them.

76%

Of venues carry no-shows, at roughly £3,621 per venue per year. Timed one-tap reminders recover most of it.

70–90%

IVR abandonment when the line runs hot mid-service. Agentic voice answers every call in seconds.

9.7/10

How our clients rate us. ISO 27001, CREST and Cyber Essentials Plus.
