

Your transactional stack is already secure. Now make it do more.

You have already made the right infrastructure choice, and it is certified, warm and signed off. Kaptea's Pronto platform layers on top of the Twilio and SendGrid backbone you own, adding templates, channels, campaigns and per-entity billing, with the regulated foundation untouched. Live in hours, and simple to evolve as you grow.

TRANSACTIONAL COMMUNICATIONS

WHAT YOU GET WITH TWILIO

A certified transactional backbone on Twilio and SendGrid: warm sender domains, authenticated delivery, compliance signed off, carrier-grade and proven at global scale. And it is all on your own account, so your data and your sender reputation stay yours. Now you need the layer that adds channels, templates and governance on top.

WHAT PRONTO ADDS ON TOP

The orchestration layer over what already works. One drag-and-drop template library with approval workflow and full audit history. SMS, RCS, WhatsApp, Voice and ad-hoc campaigns on the same engine. Central control with local autonomy, and per-entity billing meters group finance can reconcile in minutes.

"We don't want to rip out our transactional infrastructure. It's certified, the sender domains are warm, the compliance team has signed it off. We just want to add channels and orchestration on top, without disturbing what already works."

VOICE OF CUSTOMER INTERVIEW, ENTERPRISE OPERATOR

HOW IT WORKS, ON THE BACKBONE YOU ALREADY RUN

01

Pronto plugs into your backbone

Layered over Twilio, SendGrid and equivalent providers, with sender domains, SPF, DKIM and DMARC exactly as they are. Live in hours.

02

One template library, governed

Marketers build in drag-and-drop, compliance approves, versions roll back, and every change is recorded with user, timestamp and reason.

03

Every channel, one engine

SMS, RCS, WhatsApp, Email and Voice with priority-aware failover, and ad-hoc campaigns running beside the transactional flow.

04

Control proven, costs allocated

Suppression and budget guardrails enforced across the estate, one audit trail behind every channel, and per-entity meters group finance reconciles in minutes.

KAPTEA BY THE NUMBERS

<10

Partners worldwide hold both Twilio Gold and AI Certified status. Kaptea is one of them.

99.5%+

Transactional message delivery, with cross-channel failover built in.

Minutes

For group finance to reconcile per-entity billing that used to take hours every month.

9.7/10

How our clients rate us. ISO 27001, CREST and Cyber Essentials Plus.
