

A TWILIO GOLD & AI CERTIFIED PARTNER

Every customer reached. Every reply resolved.

You have already made the right infrastructure choice. Kaptea's Pronto platform deploys on the Twilio account you own and orchestrates urgent customer communications at national scale, from the first alert to a confirmed, audit-ready outcome. Live in hours, and proven when the regulator is watching.

WHAT YOU GET WITH TWILIO

Carrier-grade messaging and voice from the market leader, holding firm at national scale, with Branded Calling and branded sender so the urgent message arrives from a name your customers recognise and answer. And it is all on your own account, so your data and your carrier relationships stay yours. Now you need the machine that reaches everyone and resolves every reply inside the deadline.

WHAT PRONTO ADDS ON TOP

The orchestration layer built for the surge. A CSV, API call or CRM event dispatches in minutes. An escalation cascade follows each customer only as far as needed. AI resolves the reply wave in natural language and routes the complex cases to your team. And every send, reply and closure is logged as evidence.

"We get a recall instruction from the OEM and we have six hours before we have to demonstrate action to the regulator. Our existing stack cannot take a CSV of 30,000 affected customers and dispatch a verified notice with delivery proof. We needed a purpose-built recall tool, not a workaround on an API designed for marketing campaigns."

RECALL & REGULATORY MANAGER, NATIONAL AUTOMOTIVE FRANCHISE NETWORK

HOW IT WORKS, FROM FIRST ALERT TO AUDIT-READY OUTCOME

01

The instruction lands, the send goes out

CSV upload, API trigger or live CRM connection. Validated, mapped to templates and dispatched across channels in minutes, on your own Twilio account.

02

The cascade finds everyone

Email first, SMS to the unopened, then a branded call to anyone still unreached. Each customer moves only as far as needed, and every step is logged.

03

The reply wave is resolved

Thousands of replies answered in natural language: outage queries, recall enquiries, eligibility questions. Complex cases reach your team with full context.

04

Every outcome proven

Delivery, response and closure recorded per customer, timestamped and exportable as regulatory evidence, with a live trust score showing every loop closed.

KAPTEA BY THE NUMBERS

<10

Partners worldwide hold both Twilio Gold and AI Certified status. Kaptea is one of them.

75k/hr

Contacts per hour, stress-tested at national scale. The same flow runs from 500 to 500,000 per campaign.

30–50%

Pickup uplift from branded, verified calling, so the urgent message actually lands.

9.7/10

How our clients rate us. ISO 27001, CREST and Cyber Essentials Plus.

NEXT STEP

See the surge handled on your own Twilio.

Everything in more depth, with real examples and answers to the common questions, is at kaptea.io/emergency-surge-communications. And when you want to talk it through, you will be talking to the founders.
